-----------------------------------	-----------------------

Louis Gotthelf, DVM – Sponsored by MedRx, Inc.
Learn how to diagnose and treat ear disease - one of the most vexing conditions you experience in everyday practice utilizing anatomical specimens and the MedRx videoscope.

<i>Cruciate Repair Lateral Suture Techniques w/Bone Anchors – Friday 8:30am - 11:30am</i>	<i>\$300.00 _____</i>
---	-----------------------

Sponsored by SECUROS
Bone anchors are implants that secure the suture to bone vs. placing the suture around the fabella during the lateral suture technique. They were engineered to alleviate the pain associated with the suture pulling on the fabella during the extension and flexion; removing the possibility of the suture popping off the fabella and having the fabella pulled off in larger dogs. Other uses include Hip Luxations, Ligament and Tendon Repairs.
